

Template For Test Strategy Document

Template For Test Strategy Document - TEST STRATEGY DOCUMENT The Test Strategy Document is a living document that is created in the project's Requirements Definition phase, after the Requirements have been specified. The Test Strategy document describes the scope, approach, resources and schedule for the testing activities of the project. This includes defining what will be tested. To make it clearer if the Test Plan is some destination then QA Test strategy is a map to reach that destination. How to prepare a good test strategy document. Every organization has their unique priority and set of rules for software designing, so do not copy any organization blindly. What is test strategy? It's a plan for defining testing approach, what you want to accomplish and how you are going to achieve it. In this article I've outlined the step by step process to write a good test strategy document. Also (hopefully) cleared the confusion between test strategy and test plan documents. Test Strategy document is a high level document and is usually developed by a project manager. This document defines "Software Testing Approach" to achieve testing objectives. Test Strategy document is a static document meaning that it is not often updated.
